

Product-Service System

Solution Components

- Item Inventory: Electronics, sports gear, tools, event-specific items.
- Maintenance System: Partnerships with local vendors for repairs.

Implementation Steps

- Partner with Fudan University for hub locations (e.g., libraries, dorm zones).
- Pilot with high-demand items (e.g., portable projectors, tools).

Benefits

- Cost Savings: Students avoid purchasing expensive, rarely used items.
- Community Building: Encourages resource-sharing culture.
- Space Efficiency: Reduces clutter in dorms.
